_

With a solid background of math and statistics, I am a highly-skilled data enthusiast with exceptional problem solving, creative thinking and analytical skills. I believe in my ability to take ownership of projects and look for new problems to solve and new concepts to implement. During my career, I have been always a quick learner with an innate desire to continually learn, adapt, and develop my abilities.

EXPERIENCE

Market Analyst | Centerm

JAN 2019 – JAN 2020, Tehran, Iran

- Launched a project by analyzing the sales and importing market for POS Terminal machines
- Composed a comprehensive report by investigating through the last 5 years importing orders and fluctuations of wholesale and retail prices for POS Terminal machines. Built several visualizations by Tableau, also suggesting a reasonable number for importing and competitive price in the market
- The project succeeded by importing and selling 10,000 units as a first order

Data Analyst| DyStar

SEP 2015 - JAN 2019, Tehran, Iran

- Explored the best-selling Textile Dyestuffs by analyzing the five past years and finding the best sellers in each group of dyestuff in Iran's market
- Composed quartal and annual reports for importing and sales amount to the shareholders
- Lifted the 15% of Disperse black dyestuff's sales by suggesting a compatible price according to our analyzes

Project coordinator | Arme Group

APR 2009 – MAR 2012, Tehran, Iran

- Built a PMO (project management office)
- Assembled time-table for projects
- led a team of five people for scheduling, documentation and sending different equipment to construction sites

Sales Expert | Rangavar Shimi

FEB 2006 – MAR 2009, Tehran, Iran

- Awarded for selling 80 tons of TiO2 in a year
- Coordinated between Tehran and Dubai offices

Python, SQL, R, Tableau, Plotly, Matplotlib, Tensorflow, AWS, Spark, Hive, Primavera P6, AutoCAD

LANGUAGES

English, Farsi, Turkish, Azerbaijani

RECENT PROJECT

Forecasting and suggesting for import and export merchandises in Canada

Data Science Candidate Winter 2020

Reza Navidi

Market Analyst, Business Analyst

With a solid background in math and statistics, I am a highly-skilled data enthusiast which can gather all the data regarding a problem, find the fractions and faults, predict future trends and suggest the best solutions for improving companies' efficiency. As a reliable person who is a problem solver, it's time, to wear my suit with a pink silk tie, to challenge my self to solve the complicated problems in the international companies and travel all across the world for encountering them.

Import & Export in Canada

Finding trends and high demand merchandise, Future prediction and suggesting best merchandise
